

INDUSTRIAL LAUNDRY SPECIALIST

 **DOMUS**
WINNING THE FUTURE THROUGH INNOVATION

OUR MACHINERY

We have a wide range of front washers from 8 to 120 kg, sanitary barrier washers, dryers up to 80 kg and wall ironers with folder, folders and accessories such as the Ecotank.

FRONT WASHERS AND SANITARY BARRIERS

Front and sanitary barrier washers, that adapt to the needs of each client. Standard connectivity: remote control, telemetry, etc.

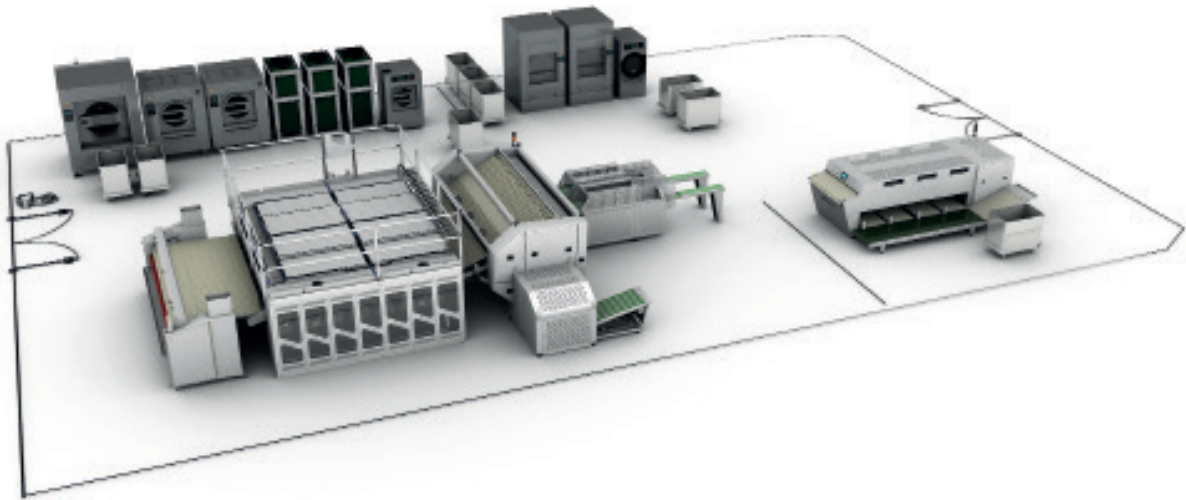

EFFICIENT DRYERS

Various ranges with the most efficient features: air recirculation, intelligent humidity sensor, ergonomics and connectivity.

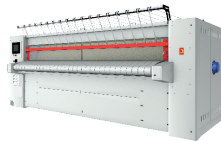

FOLDERS

Folders for towels, air or knife folding options, XL models, etc. Folder for napkins and small garments.

IRONING LINES

Wall ironers and through-bucket calenders. Complete ironing lines (feeders, wall ironers and folders).

FINISHING TUNNELS

Hotstream drying and finishing tunnel, the solution to archive the best results. Increase business productivity with the best quality and the lowest energy consumption.

CONNECTIVITY

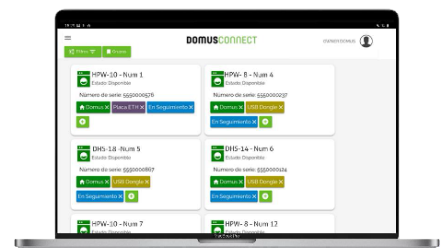

Remoto control of the machines and the business, with reports on productivity, consumption, telemetry, remote technical service, etc.

DOMUSCONNECT

Standard and free connectivity

INDUSTRIAL LAUNDRY

At DOMUS we have specialized in manufacturing industrial laundry machinery, using the latest technology to offer **efficiency and productivity** for your business.

INTEGRAL CONSULTANCY

We help you
optimize your
business

- Process improvement, efficiency, layout, productivity
- Innovation, new technologies
- Cost control
- QA (quality control)
- Energy efficiency, water consumption, etc.
- Customized training: processes, operational, management, maintenance, etc.

➤ LAUNDRY PROJECTS

Whether for new projects or existing laundries, we accompany you through the entire process.

- Drawings
- Assessment of installations
- Requirements calculations
- Workflows
- Process improvements
- Energy efficiency

GLOBAL SUPPORT

We help you find the best way to finance your equipment, so that this is not a barrier to improvement and innovation in your business.

- Payment facilities
- Leasing and renting programmes **DOMUSRENT**
- Search for external financing
- Advice on the search for subsidies

TECHNICAL SERVICE AND SPARE PARTS

The most expensive network of industrial laundry technical services.

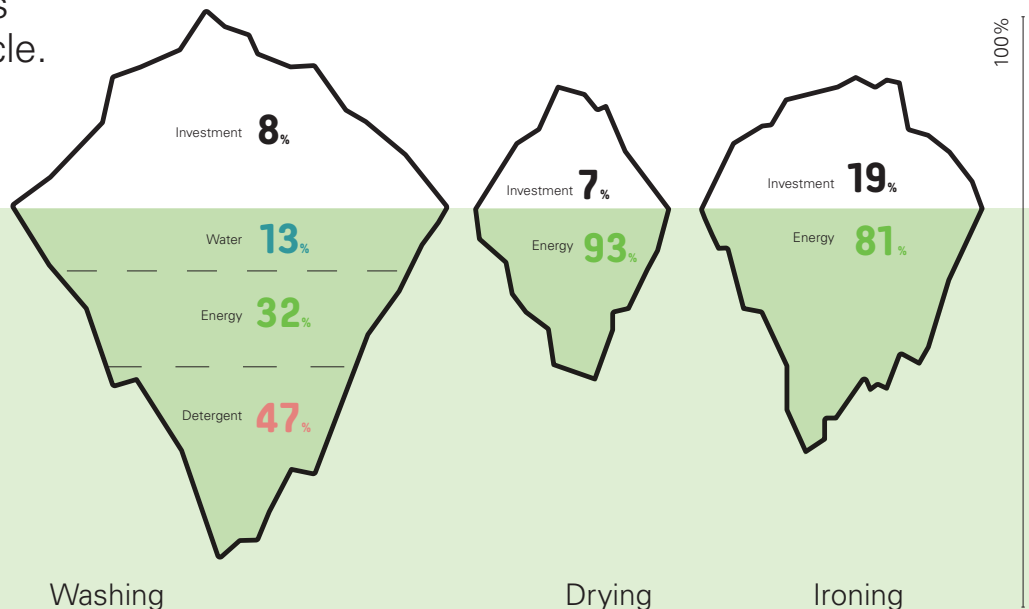

- Wide coverage of official technical services throughout the national market, with stock of parts.
- Professional and specialised technical service for industrial laundries.
- Online support.
- Online sale (e-commerce) of spare parts and order tracking.
- 24h spare parts delivery service.
- Maintenance contracts.
- Standard warranty up to 5 years.
- Extended warranty programmes.
- Maintenance service training.

EFFICIENCY

In a laundry, the machinery is the visible part of an iceberg.

At Domus we pay attention to the part that cannot be seen, to optimize resources throughout its life cycle.

*Example of a typical laundry with 50% flatwork and 50% terry, during the first 10 years of life.

ECOVOLUTION

by DOMUS

At DOMUS we offer a wide variety of features to improve the efficiency of our industrial washing machines and dryers, to ensure that optimum use is made of water and chemicals in each wash cycle, as well as reducing energy consumption to a minimum. We can achieve savings of 70% in water and 45% in energy with the weighing kit option combined with the ECOTANK accessory.

Water

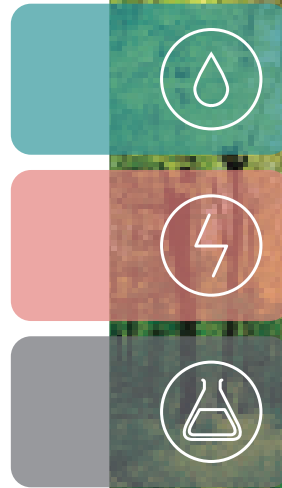

Saving and making good use of water is one of our objectives, we do not allow ourselves to waste it. We offer washing machines with an optimized design and programming as well as a unique accessory, the **ECOTANK**: water recovery tanks.

Energy

Energy optimization is key in a laundry. With this objective, our machines have been designed for greater energy savings.

Chemicals

We design our washers with features that facilitate and ensure the most accurate use of chemicals.

ADVANTAGES

- ✓ On a DHS-80C TOUCH II washer with 50% load, savings of up to 70% in water and 45% in electricity are achieved.

ECOTANK XL

Washing machines with the TOUCH II system and double drain can be connected to the ECOTANK XL, the new centralised tank that allows water recovery, achieving significant water and energy savings. For one or more machines, from 1 to 3 tanks of 1,000 litres.
