LAUNDRY PROJECTS

Whether for new projects or existing laundries, we accompany you in the project.

- Blueprint
- Assessment of facilities
- Requirements calculations
- Workflows
- Process improvements
- Energy efficiency

EFFICIENT EQUIPMENT AND SOLUTIONS

One of the most important sources of infection in hospitals, clinics and nursing homes is laundry. A good laundry process ensures **maximum hygiene**.

LEMS-Brain

Receives and processes the pulses sent by the water, gas, and electricity meters, converting them into digital data that is transmitted to DOMUSCONNECT.

LEMS Counter Box

Measures consumption in real time and sends it to the LEMS-Brain via pulses. One unit is installed per machine, ensuring accurate and detailed measurement of each piece of equipment.

 **ECOSMART**

CHIPS RFID

Reduce garment loss by 100% by identifying all garments.

Total control and telemetry.
Time saving.

OZONE CABINETS

The ECO_3 ozone cabinet is a cabin designed to DEODORISE and HYGIENISE all types of clothing, accessories and materials by means of ozone.

FRONT AND BARRIER WASHERS

Front and sanitary barrier washers, from 8 to 120 kg, adapted to the needs of each customer.

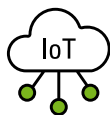

Cotton

Microfiber

WASHERS WITH A SPECIFIC FILTER FOR WASHING MOPS

DOMUSCONNECT

ANYTIME, ANYWHERE

ECOSMART LAUNDRY is the all-in-one solution for your industrial laundry. With DOMUSCONNECT, you can control and optimize your equipment in real time from anywhere, boosting efficiency and reducing costs.

LEMS by Onnera (*Laundry Efficiency Management System*) is the system that precisely measures the water, gas and electricity consumption of your equipment, promoting more sustainable management.

It consists of two components: the **LEMS-Brain** and the **LEMS Counter Box**.

LAUNDRY

DRYERS AND FOLDERS

Various ranges with features guaranteeing high efficiency: air recirculation, intelligent humidity sensor, ergonomics, etc.

Folding machines for towels, napkins, covers, small garments...

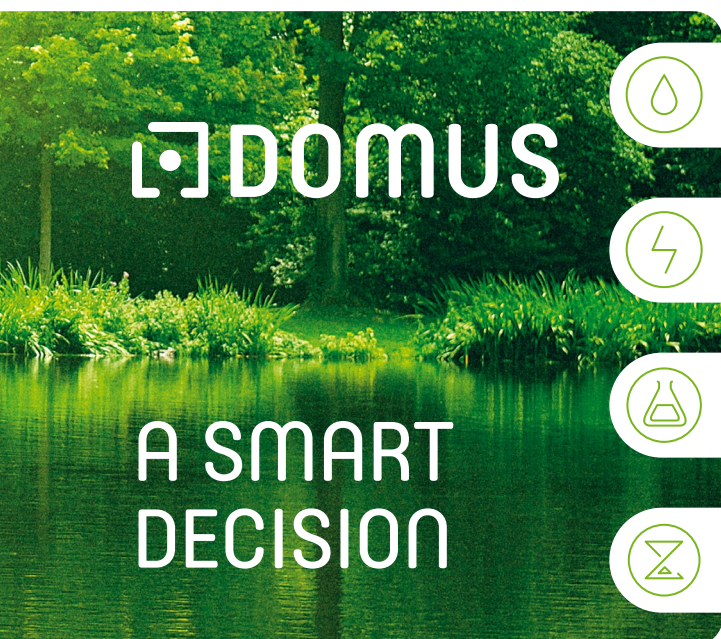

FLATWORK IRONERS

Wall ironers with speed and humidity control. Connectivity for total process and business control.

EFFICIENCY

At Domus we know how important efficiency is and we are strongly committed to the environment. That is why we have developed a new state-of-the-art product range with low consumption and high energy savings for their entire life span.

Water

We incorporate water recirculation technology and management software that guarantees low water consumption and efficient use of water in each wash cycle.

Energy

We optimize our machines to ensure greater energy savings and maximize laundry efficiency.

Chemicals

We design our washers and barriers with features that facilitate and ensure the most economical use of chemicals.

Time

We adjust the time of the processes, key in a laundry, increasing the efficiency and profitability of the business.
